## B.TECH GRADUATED

---

### INTRODUCTION

I am a B.Tech Graduated student. I consider myself a responsible and orderly person. Strong creative and analytical skills. Team player with an eye for detail. I am looking forward for a job in a reputed company to analyse my skills and work experience.

### EDUCATION

#### **B.Tech in Electronics and Communication Engineering**

Swami Vivekananda Institute of Science and Technology

- Cgpa : 8.53

### CONTACT DETAILS

6291091587

suvankar.kundu2000@gmail.com

2/165G, Sreecolony, Kolkata - 700092

### LANGUAGES

- English
- Hindi
- Bengali

### SOFT SKILLS

- Communication
- Organization
- Teamwork
- Problem-solving
- Critical thinking
- Adaptability
- Conflict resolution
- Time management
- Leadership
- Creativity

### HARD SKILLS

- Coding Skills : Html, Css, JavaScript, Python, Java, C++
- Troubleshooting
- Microcontrollers
- Networking
- Embedded system
- Debugging
- Communication Protocols
- LAN/WAN
- Arduino
- Circuit Design
- Telecom Networks
- Electronics
- Ms-office
- Ms-excel

### PROJECTS

#### **1. IOT based health monitoring system**

Group work College Project

Conclusion of our project is that it is very much essential

- to measure the human body parameter which is in critical situation
- to analyze the data, without analyzing we can't identify the exact problem
- if we analyze the data then we can treat patient more
- accurately more efficiently and as soon as possible.
- With the help of Wifi we can transmit that analyzed data wirelessly to doctor.

#### **2. Program based on Arduino**

- How to control the brightness of a LED with the help of a light Dependent resistor in Arduino
